

## Optimize profit with **LoadMaxx** on-board scales

### Maximize payloads

Minimize risk while optimizing profit — you'll feel confident getting the perfect load every time.

### Plug profit leaks

No more costly checkweighing, out-of-route miles or extra repairs due to overloads.

### Eliminate guesswork

No more inefficient reworking of loads and searching for scales.

### Avoid costly fines

By helping you avoid even one hefty overweight fine, your **LoadMaxx** scale will pay for itself.

Load the trailer,  
brakes released,  
read the weights —  
We make it easy!

**Air-Weigh**

## Join our family of satisfied customers

Ask your trailer representative to include **Air-Weigh** scales on your new trailers. Available as standard equipment or a factory option with more than 175 trailer manufacturers, and growing.

English, Spanish and French language options

Tested to stringent SAE commercial vehicle standards

Protection comes standard!  
**3-Year Limited Warranty Included**

# Make the most of every mile

We offer a variety of options to help you maximize your load and optimize your profits

- ✓ Complete vehicle weighing systems for both air and mechanical suspensions.
- ✓ LoadMaxx scales display accurate weights at the loading site, allowing you to load the vehicle correctly the first time, and get on the road.
- ✓ Easy-to-use and easy-to-install. Designed to meet the diverse needs of owner-operators and large fleets alike.

## LoadMaxx Trailer Scale

- Icon-based touch screen display
- Built-in LED alarm lights
- Ability to store up to four manual calibrations
- Economical standalone trailer scale

## LoadMaxx ComLink

- ComLink enables trailer scale to communicate with any LoadMaxx equipped tractor
- View trailer & tractor weights on in-cab tractor display
- Automatic drop & hook capability
- Simple plug-and-play installation

## LoadMaxx Tractor Scale

- View steer, drive, trailer, GVW, & net payload on in-cab display
- Transmits weight to tractor's data bus
- Bluetooth communication to LoadMaxx App

## LoadMaxx App

A scale in the palm of your hand! The LoadMaxx app allows you to view all weights on any smartphone or tablet. Email data back to the home office and calibrate your scale right from your device.

*LoadMaxx tractor scale required*
